David,

As per your request last week, I came by your office to show you the stock certificates that I deposited today. Pat told me to email you instead because you were on vacation. Below is what has come is so far, with another 10+ new clients opened up accounts and are depositing another 30 million shares shortly. We will have over 90 million shares here at Oppenheimer, which is almost all the outstanding shares of the company.

One certificate is for 52,150,000 shares at \$2.40 - market value \$125,160,000

The second certificate is for 5,848,500 at \$2.40 - market value \$14,036,400, with more to follow...

Not a bad day here at Oppenheimer for myself, I just wish I could bring in 140 million dollars every day...!! - LOL

Hope you are enjoying your vacation and will speak when you get back.

Regards,

Gregg D. Templeton
